## Professional Summary

---

Highly motivated and recent graduate with MCA from S V University, with strong analytical skills and a passion for continuous learning. Seeking an entry-level role in Software Developer to apply my academic and project experience effectively.

## Education

---

|   |                               |
|---|-------------------------------|
| <b>Sri Venkateswara University</b><br><i>Master of Compute Applications (GPA: 8.2)</i> <ul style="list-style-type: none"><li>• <b>Relevant Coursework:</b> Data Structures and Algorithms (Java), Database Management Systems, Networking - TCP/IP, Operating System, System Design</li></ul> | NOV 2023<br><i>Tirupati</i>   |
| <b>The Adoni Artsand SScience College</b><br><i>Bachloer of Science (GPA: 7.8)</i>  | OCT 2021<br><i>Adoni</i>      |
| <b>Sri Satya Sai Junior College</b><br><i>Higher Secondary - XII (GPA: 9.31)</i>  | MAY 2018<br><i>Ananthapur</i> |

## Projects

---

### Travel Booking Platform | *Microservices, SpringBoot, Java, REST API, My-SQL, MongoDB* [Link](#)

- Designed and developed a microservices-based travel booking platform using Spring Boot and Java, encompassing user, hotel, and rating services.
- Integrated an API Gateway for streamlined request handling and implemented Okta for robust security and authentication.
- Ensured efficient inter-service communication and scalability, optimizing system performance and reliability.
- Applied best practices in Spring Boot development to create RESTful APIs, ensuring code quality and adherence to industry standards.

### Job Searching Portal | *React.js, HTML, CSS, JavaScript, Bootstrap* [Link](#)

- Designed and developed a user-centric job search portal with an intuitive UI using HTML, CSS, and JavaScript. Integrated dynamic form interactions and real-time previews for enhanced usability.
- Employed React.js to optimize front-end interactivity, including signup and login processes, thereby improving the overall user experience.

## Technical Skills

---

**Languages:** Java, J2EE, JavaScript, SQL

**Technologies:** Micro Services, Spring Boot, Spring MVC, Spring Security, React.js, REST API, HTML, CSS, Bootstrap,

**Concepts:** DSA – Data structures and Algorithms, System Design, Operating System, Database Management Systems, MongoDB, Linux, Networking Concepts, API, Database Normalization, Design Patterns, Cache Memory, Git, GitHub, Figma, Agile Methodology,

## Achievements

---

- Participated in Preplnsta Coding Hackathon, achieving a ranking of 1492. [Link to certificate](#)
- Proficient in algorithmic problem-solving, with 205 solved problems on LeetCode and CodeChef, on Platfrom, showcasing strong coding skills and diverse problem-solving
